

About our School

School's Message

Welcome to the new school year. This is going to be both an exciting and challenging period for the **Lincoln-Martí** family.

At **Lincoln-Martí** we believe that the quality of any nation, state, city, community and family must be judged by the preparation and advancement of the individuals who comprise them.

Our system of education is based on the philosophy that successful student growth and development depends on the rationale for guiding such growth. We recognize that children need to develop their need for freedom within limits. **Lincoln-Martí** has prepared an environment that guarantees exposure to materials and experiences that promote the development of intelligence of each child, as well as each child's physical and psychological abilities.

Students are respected as individuals and they learn to respect others. The needs of the individual are strongly emphasized, as students are exposed to activities involving freedom of choice. Yet students are taught in classrooms to facilitate the socialization process. Students are free to create friendships and learn to respect each other within a loving and friendly environment. Love is fundamental to the development of the whole child.

The **Lincoln-Martí** family provides its students the opportunity to work, study, and participate in activities that facilitate their adjustment to a new culture and prepares them to become self-sufficient within it.

The goal at **Lincoln-Martí** is to provide the environment where students have the opportunity to develop the whole self with the abilities to face the challenges of adulthood. Through a sound bilingual and multicultural educational program; moral, urban and civic education; the development of a commitment to justice and moral values; an appreciation for one's cultural heritage; an understanding of the rights and responsibilities guaranteed by this great nation and the promise of freedoms enjoyed; a recognition and commitment to continue to grow intellectually with a spirit of success, we hope to prepare model citizens and the leaders of tomorrow.

Lincoln-Martí is registered with the Florida Department of Education and is a member of several educational associations.

The **Lincoln-Martí** facilities are licensed by the appropriate governmental agencies, and authorized under Federal Law to enroll foreign students needing I-20 visas.

We invite you to join us in accepting the challenge of preparing our young people for the adulthood in the framework of culture, humanity, moral and civic development.
